15 JUNE 2026

RWANDA-LOCAL NO.BT/EM/0071/06/2026

TO Mr. Niyomwungere Hildebrand
The Mayor of Nyamagabe District
Southern Province
Republic of Rwanda.

Dear Mayor,

Re: Request for Support in Identifying Female Youth and Persons with Disabilities (PWDs) for the SERVE Project.

CARE International, founded in 1945, is a global humanitarian organization dedicated to addressing poverty, with a strong focus on empowering women and girls. CARE has been a development partner in Rwanda since 1984.

In collaboration with DUHAMIC-ADRI, Pro-Femme Twese Hamwe (PFTH), the Association of Microfinance Institutions in Rwanda (AMIR), and Urwego Finance, CARE International in Rwanda appreciates your continued partnership in the implementation of the Supporting, Enhancing Resilient and Viable Employment Opportunities (SERVE) Project in your district.

The SERVE Project promotes youth employment particularly among young women through agricultural value chains such as chili, poultry, tomatoes, and French beans. As part of this effort, CARE is equipping youth with entrepreneurship skills to develop viable and bankable agribusinesses.

To expand this initiative, CARE plans to identify additional youth aged 18–35 who are engaged in these value chains. Selected participants will receive targeted support to strengthen and grow their businesses, contributing to job creation in their communities.

We kindly request the District's support in identifying eligible female youth-led businesses and persons with disabilities (PWDs) within this age group. Eligible participants may be involved in production, aggregation, processing, storage, marketing, or agro-dealership within the targeted value chains.

Your support in mobilizing and identifying eligible participants across the District will be instrumental to the success of this initiative.

We appreciate your continued leadership and commitment to youth empowerment, entrepreneurship, and job creation. We look forward to strengthening our collaboration.

Sincerely,

Signed by:

Betty Tushabe
